C. L. Zedaker, marrying 'squire of New Bedford, has a complaint to make to Postmaster General Farley. A couple who had applied for a marriage license here instructed Prothonotary John A. Edgar to send the license to Zedaker, who was going to marry them. Edgar did as directed, addressing the letter with a typewriter, "C. L. Zedaker, New Bedford, Pa." Zedaker and the couple waited in vain for about a week and then Zedaker came down Saturday to see what was the matter. Edgar had just received his letter back from Linesville, Pa., where it had been sent.

Tuesday And Wednesday County Registration Days

Two more days remain for voters of the rural sections of Lawrence County to register at polling places and the first of those two days is Tuesday, August 10. The second and last is Wednesday, August 11.

Rural voters have criticized the permanent personal registration law as it was drawn by the recent General Assembly. Their arguments may have had some weight while the bill was in course of passage.

Criticisms are useless now. The act is a law and must be followed by those who wish to vote.

Every citizen must be registered if he wishes to vote on September 14. If he does not register he does not vote.

The two days, August 10 and 11 are final county registration days in the polling places. After that the voters must come to the court house, on or before September 1.

Wednesday Will Be Dollar Day Here

Sponsored by the Retail Merchants Association, the city's leading mechants will observe Dollar Day, Wednesday August 11, with a stupendous array of bargains which should prove attractive to choosy buyers.

The event is being participated in by 48 of the city's most enterprising merchants, who have put forth considerable effort to make the event one that will exceed former efforts in this direction, and those who are expecting something out of the ordinary will not be disappointed President Lew J. Miller of the Retail Merchants Association announces.

Dollar Day is conducted semi-annually by the merchants of New Castle and has become an established custom, one which residents of the city and surrounding community look forward to with expectancy.

Each merchant has selected a special group of items which will be offered at prices far below what is ordinarily charged for this particular merchandise, and by carefully perusing the advertisements of this special sale, buyers will know just where to go to have their wants supplied.

The event generally attracts many out-of-town buyers and this week's sale is expected to prove no exception in this respect. With favorable weather, the merchants promise that they will receive their money's worth by attending this sale.

Louisiana Man Flogged By Girl

Eloise Willis, 17, Flogs Alleged Scandalmonger In Public In South

POLICE CALLED BY ATTACKERS

(International News Service)

NEW ORLEANS, La., Aug. 9.—A pretty 17-year-old girl awaited trial here today for having publicly flogged a man she labeled as a scandalmonger.

Professing bewilderment, the victim denied the extra-legal gossiping charge.

More than 100 neighbors looked on as the girl, Eloise Willis weilded a length of knotted rope on the bare back of Oscar Kay, 47, a WPA worker.

A girl's honor is nothing to be trifled with in these parts. Only last month Jessie Pepper, 17, shot and killed May Elvin Allen near Coushatta over a bit of gossip.

Lured From Home

And so the entire Willis family was aroused over tales allegedly spread by Kay about Eloise. A brother, Alfred, enticed Kay from his home on the pretense that the WPA foreman wanted to see him.

Make Protests On Proposal To Regulate Hours

Store Proprietors Appear Before Council And Oppose Closing Hour Plan

Peter Brown, East Washington St. businessman today appeared before council at their meeting in city hall, as the representative of Leo Borovilos, East Washington street grocer. He told council that Mr Borovilos was opposed to council establisning business hours for retail food and grocery establishments.

Mrs. Borovilos also spoke. She said that should council by ordinance establish business hours for stores we might as well throw the key away."

She said that such an order would result in the ruination of their business and also affect many other neighborhood groceries.

Mrs Borovilos explained that during the day time business at her place is slow and her volume is done at night.

She said "I do not see why the big fellow should close me up."

Mayor Charles E. McGrath told Mr. Brown and Mrs. Borovilos that council would consider the objection before taking action on the bill submitted by Councilman J. D. Alexander last week.

When the petitions asking that hours be set and stores be closed on Sunday and holidays, the solicitor was asked to give council a ruling as to council's legal right to establish business hours.

Parking Meters To Be In Use Thursday

According to announcement by Mayor McGrath today, the parking meters will not be in operation until Thursday. Previous announcement said they would operate Tuesday.

Loyalists Mow Down Rebel Line

"Trench Of Death" Attack Brings Huge List Of Rebel Casualties

GOVERNMENT TROOPS CLAIM ADVANCE

(International News Service)

MADRID, Aug. 9.—Madrid's "trench of death" was assaulted today by the Rebels, and heaps of dead and dying attested to the efficacy of the machine guns and trench artillery which gave the grim ditch its name.

Wave after wave of insurgents attacked the loyalist main line of defense at Usera, on the Madrid front, only to be mowed down under the scythe-like sweeps of loyalist rapid-fire.

Tunneling ferrets from Madrid bored their way under seven houses in the Carabanchel sector south of the capital and blew them to splinters with mines, causing a heavy loss of life, and enabling the loyalists to improve their position with occupation of new ground.

Government Troops Advance

Government troops also made advances in the Avila sector, announcement here said.

Reorganization by both factions seemed to be in progress on the Teruel and other fronts. This was indicated by general inactivity, especially noticeable on the salient where insurgent troops have been held up in their advance toward the Madrid-Valencia highway at Ceunca by a dual loyalist counter-attack on the flanks.

Organization of a special counter-espionage service under direct control of Indalecia Prieto, minister for defense, was announced today.

Philadelphia Baby, Born After Mother's Death, Fails To Survive

PHILADELPHIA, Aug. 9.—In the arms of the mother who never looked upon her pale face, baby Frances Mary Boccassini will be laid to rest in a Catholic churchyard tomorrow morning. Tonight, the bodies of Mrs. Mary Boccassini and her posthumous daughter will be on view in a public funeral parlor.

"It is God's will," sobbed the broken-hearted father when informed of the death of the baby, given birth by a caesarian section a minute after life left the body of Mrs. Boccassini in Philadelphia General hospital Friday morning.

"Now, she will be with her mother," the father said. "My Mary would have wanted it that way. She looked like such a nice little baby. Now with the two of them gone, it is worse than ever."

The baby slipped into death valley early Sunday after nearly two days of almost miraculous life—two days in which surgeons called upon all the skill at their command to save her. She died shortly after a fifth cyanotic attack, her body turning blue from lack of oxygen in the blood.

Predict War Will Develop In North China

Japanese Occupy Peiping And North China Is In Japan's Control

EVACUATION OF AMERICANS PLAN

Issue Of Peace Or War Must Be Decided Almost Immediately Is Belief

(International News Service)

War, which might prove to be the greatest conflict the Orient has ever seen, was predicted before the end of this week by both Chinese and Japanese authorities.

Developments:

1—Consular officials in Shanghai arranged for evacuation of 4000 Americans when hostilities break out.

2—Thirty thousand Chinese troops were poised northwest of Peiping for an attack on Japanese-controlled Jehol and Chahar, Tokyo charged, and for the first time troops under orders from the central Chinese government at Nanking were northbound to the "front".

3—Chinese claim Japanese military leaders, desirous of "striking now before China becomes too strong", deliberately spiked peace negotiations by forcing Ambassador Kawagoe to cancel a trip to Nanking.

4—"No peaceful diplomatic settlement is possible," said Tokyo's authoritative Nichi Nichi. Japan's certainty that hostilities are imminent was borne out by the rapid evacuation of thousands of Japanese from the Yangtze river valley.

PRESIDENT PREPARES MESSAGE

To Send Letter To Harmony Dinner

Will Not Attend Dinner For Democratic Floor Leader In Person

ROOSEVELT REMAINS AT HYDE PARK HOME

By GEORGE DURNO
International News Service Staff Correspondent

HYDE PARK, N. Y., Aug. 9.—In the quiet of his Hudson Valley home, President Roosevelt today prepared a message for delivery tomorrow night in Washington at the senate "harmony dinner" in honor of Alben Barkley, of Kentucky, newly elected Democratic floor leader.

The president decided to remain over an extra day at Hyde Park but it was understood he would not attend the Tuesday night banquet arranged by senate Democrats on both sides of the recent supreme court fight as a harmonious gesture to Senator Barkley's new leadership.

White House aides here at Hyde Park refused to speculate on the scope and nature of Mr. Roosevelt's letter to the diners. With congress in the throes of adjournment, it was predicted the message would be one of good humor that will have no bearing on the issues still confronting house and senate.

White House Not Consulted

Tomorrow night's dinner, it was understood, was arranged without White House consultation. The last "harmony party" the president conducted was on Jefferson Island, in Chesapeake Bay, at the Democratic club maintained largely by members of congress. Senator Joseph T. Robinson's death occurred shortly after this three-day outing and upset administration legislative plans.

Absence of the president tomorrow night, his aides stated, should not be interpreted as a slight to Senate Majority Leader Barkley. The Kentuckian's one vote victory over Senator Pat Harrison, of Mississippi, generally has been attributed to undercover support from the White House.

The inference was that Mr. Roosevelt desired to keep out of congressional parties at this late stage of the session.

Significant Visit

Significance was attached to the Sunday Hyde Park visit of Edward J. Flynn, Democratic leader of the Bronx. The president motored down to Poughkeepsie with Flynn in his car to inspect a new post office site.

Flynn is one of the four New York City county bosses opposing the mayoralty candidacy of Senator Royal S. Copeland on a straight Tammany ticket. Flynn and other New Dealers originally selected Grover Whalen to oppose Copeland in the primary, but Whalen retired in favor of former New York Supreme Court Judge Jeremiah T. Mahoney.

Mahoney is a close friend of both the president and Postmaster General Farley. Bronx Leader Flynn, from the president's car, breezily assured reporters yesterday that Mahoney would win the Democratic nomination and become a candidate against Mayor Fiorello LaGuardia.

After church services Sunday, the president talked informally with reporters. Ask whether he planned to spend September in Hyde Park, he said he had been invited to 50 or 60 points. This gave rise to speculation that he might be considering a trip to California next month. The president was quoted recently by a congressman of that state as having promised to make the transcontinental journey.

If he works hard enough to provide his wife a car, pretty clothes, leisure and spending money, he is called a success.

PREDICT WAR WILL DEVELOP IN NORTH CHINA

(Continued From Page One)

tions amounting to severance of the five northern provinces from the remainder of China, was followed by a breakdown in peace negotiations.

Ambassador Shigeru Kawagoe of Japan, who had gone to troubled Tientsin to discuss the crisis with Chinese leaders, returned to Shanghai as several hundred thousand Chinese troops continued by train to converge on the Peiping-Tientsin area.

The possibility that Ambassador Kawagoe might return to Tientsin to reopen negotiations was held out by a spokesman for the central Chinese government at Nanking, but, he added:

"The issue of peace and war will have to be determined almost immediately.

"It is still not too late to avoid a disastrous conflict, if Japan makes a great effort. Failing that, there is hardly a hope for peace left."

For the first time in 37 years—the last occasion followed the Boxer rebellion, in which the United States took part—aliens today were in control of Peiping.

To Set Up Japanese Regime.

The next step, Chinese felt, would be a Japanese move to set up "autonomous" Chinese regimes consolidating those already existing, under Japanese influences, in Hopei-Chahar and East Hopei, and extending them to other provinces of north China.

Showmanship and propaganda marked the dramatic occupation of Peiping by the Japanese.

Through three gates and down the main streets to the blare of trumpets and the "bazais!" of Japanese and Koreans moved 3,000 Japanese troops. First they staged an impressive interview before General Torashino Kawabe, then deployed throughout the city.

Chinese impassively watched the demonstration, lining the streets in thousands.

As the military paraded throughout the boulevards, airplanes dropped leaflets practically proclaiming Japanese domination of the area stretching from the sea to the borders of Mongolia, along the great wall south of Manchukuo.

"North China has been returned to the north Chinese!" said the pamphlets. "The Japanese army has driven out your evil rulers, and will keep them out."

Bulletins posted in the streets told the citizens that they would be safe so long as they do not "molest" the Japanese army.

War This Week?

Shanghai, Aug. 9.—War with Japan this week, was the prediction today of best-informed Chinese military and political leaders.

As Japan ironically asked permission to land more troops in China, authorities here charged that Japanese military commanders were deliberately standing in the way of peace negotiations.

Japanese Ambassador Shigeru Kawagoe, it was alleged, remained in Shanghai unler orders of the Kwantung (Japanese continental) army, who flatly told him to dodge peace parleys.

The Japanese request to land troops at Tsingtao was referred by local authorities to the Nanking central government—but the belief in Chinese circles was that the request, in view of the circumstances, was only a gesture.

Small Japanese patrols already are guarding Japanese property in Shanghai and other cities, where the newly-inflamed boycott against all Japanese goods has given rise to fresh fears of outbreaks.

Generalissimo Chiang Kai-Shek, premier of China, meanwhile paces the floor of his office, worrying about means to unite the various provincial armies into a single unit for the defense of his country.

The general opinion prevails that the Japanese military leaders favor striking now before China becomes "too strong", although many Japanese have grave fears regarding Nippon's economic capability of supporting a great oriental struggle at this time.

China Musters Forces.

Tokyo, Aug. 9.—China's vast resources of man-power were mustered today for service against Japan.

For the first time in the present crisis, according to advices here, the central nationalist government at Nanking mobilized troop reinforcements, highly mechanized, and sped them via the Tientsin-Pukow railroad toward the potential war center of Hopei province.

Other divisions which had been advancing on the Japanese "front" belonged to provincial armies, not connected directly with the central government.

Nanking, the capital, is guarded by 30,000 troops who could also be thrown into the northern fray if needed, dispatches said.

The Nanking soldiers possess 50 field guns, 40 howitzers and 100 fighting and bombing airplanes, according to information here.

Another 30,000 Chinese troops are preparing to launch an attack on Japanese-dominated Chahar and Jehol, newspapers reported today, commenting that Chinese-Japanese relations already are "virtually severed".

The Chinese 84th division, dispatches said, is massed at Chincheng, and the 44th is mustered at Changkiakow, ready to march on the northern provinces, one of which, Jehol, is embraced in Japan's Manchukuo.

A third division, the 89th, adding another 15,000 soldiers, is concentrated along a wide front from Yungning, through Yenking to Howailai, northwest of Peiping, is alleged contravention of treaty terms.

Hostilities, Japanese newspapers predicted, will reopen this week.

From a rural district comes a note from one concerned about the locust in the trees. In late July until September we hear a strange sound as if one was running the scale of a strange musical instrument. This is the song of the summer cicida or dog-day-harvest fly and not the locust. The harvest fly takes two years to develop, one year spent in the larvae state under ground and one year in the trees in the state of the wing and mating stage. The pharaoh's or the 17-year-locust spends 17 years under ground and the same number of days in the air and then mate and die.

He was an active member of the Moose lodge of New Castle, and a member of the Independent Order of Odd Fellows of Elwood, Indiana. He was also a member of the Odd Fellows Encampment of New Castle.

Funeral services will be conducted from the Boyd funeral home on Tuesday afternoon at 3:00 o'clock. Rev. G. S. The body is now at the funeral home and may be viewed by his many friends any time before the funeral.

NEW IDEA

SOMEONE connected with the management of the orchestral concerts at the Lewisohn Stadium in New York had an original idea. The audience the other night was startled to have presented to it three Soviet aviators who had flown across the North Pole.

Lest the confrontation should appear too surprising, the works of two Russian composers, although Czarist, were on the program, and a concert violinist, also of Czarist vintage, was the soloist. The aviators were presented to him, too, and vice-versa. Altogether it proved once more that art knows no politics. At least it was more diplomatic than taking the Russians to see a performance of a motion picture entitled "The Emperor's Candlesticks."

The idea has possibilities, both in the realms of entertainment and international good will. Let us suppose that an audience is seated in the Planetarium in New York, and when dawn sweeps the horizon the voice of the lecturer is heard as follows:

"Ladies and gentlemen, you have just seen the stars and planets visible in 1851, when the United States first captured the America's Cup. And now we present Mr. T. O. M. Sopwith, who has won it back again."

It's a grand idea, guaranteed to keep audience interest at fever pitch. Who can tell but that at some future World's Series, when the fans rise to stretch in the seventh inning, the national anthem will blare forth and the spectators burst into cheers when there is presented as a surprise feature, a European visitor who has come to pay the war debts?

RANGER'S TRIUMPH

The shellacking given T. O. M. Sopwith's Endeavor II by Harold Vanderbilt's Ranger, in the races for America's cup, has been duly noted in the news columns. The one-sidedness of these international yacht races has robbed them of some of the interest that would be displayed by the international public if England took the cup across the Atlantic every twenty years or at more frequent intervals.

But it is to be hoped the successor to the late Tom Lipton, who enjoyed the advertising for his tea these contests provided, will not become discouraged and will continue to try to take the America's cup home with him every few years, even though he garners nothing substantial as a result of his outlay.

PRODIGIES?

A proud papa of Atlanta, Georgia, is shown in press pictures with his daughter Patricia, six months old, who, at this tender age, has cultivated the habit of smoking a pipe. The baby, it seems, is even more of a prodigy than the six-year-old boy, reported in the news of a few days ago, who has become a cigar addict, but who sagely lectures his elders upon its evils.

These have been cited as instances of juvenile precocity. In truth, however, they reflect a lack of fundamental common sense on the part of parents who are deficient both in a sense of decency and in practical consideration for the welfare of their own children.

Parents who stuff a cigar or a pipe into the mouth of a little child are little better than smart alecks or morons, and something should be done to impress upon them a realization of their own foolishness. In fact, no great injustice would result if they were tossed into jail for a few days.

ADVERTISING WILL DO IT

If the cigaret ads can get grandma to reaching for a smoke, why cannot apple growers make Johnnie and Sadie clamor for red, luscious, appetizing, wholesome apples?

So asks a big producer of apples of an apple convention in one of our northern states.

Well, why not? Advertise apples, by all means. Advertise oranges, too, and pineapple juice and good clothes and new rugs and washing machines and everything. It is perfectly true that nobody is going to buy anything he doesn't know about. And it is surprising what a field of useful knowledge is discovered by the reader who really scans the ads in his daily paper with an observing eye. One of our readers says he's willing to bet as high as ten cents that sensible shoes could be sold to women if somebody just put his back into advertising 'em.

Telling the world does help to get the product sold. And the columns of your daily newspaper are one of the best places in which to do it.

SETTLING RAIL LABOR DISPUTES

Settlement of the wage dispute between the railroads and the fourteen unions representing workers not engaged in train operation is especially interesting and instructive, in these times of critical labor troubles, because of the means employed.

In this case the National Mediation Board effected an agreement for a pay increase of five cents an hour, by which about 800,000 workers will benefit. Preliminary negotiations between managements and men had broken down.

It was not found necessary to invoke the next step provided by the Railway Labor act, the appointment of an emergency board by the president. In such an event the board must make a report within thirty days and no strike may be called for thirty days thereafter.

The case of the five railroad-operating brotherhoods, with a membership of 350,000, has yet to be decided. Their demand for a 20 per cent wage increase was presented last March. A vote was called for on the customary strike authorization. The result, just announced, shows an affirmative vote of 96 per cent of the members.

This week the formal negotiations will be begun. Should they fail, resort would then be had to the machinery of the law designed to avert or postpone a strike.

The suggestion that a similar law be adopted to govern the relations of general industry and labor is worth thoughtful consideration.

The Parent Problem

By Garry C. Myers, Ph. D.

SUBSTITUTE FOR SPANKING

Repeatedly I have said in this column that if the child, from the time he begins to toddle, is spanked by his parents in accordance with a plan they had thoughtfully worked out together beforehand and together revised from time to time as the child grew, with a view to training him to avoid a few specific known dangers and to learn the meaning of NO rarely uttered, they should be able to abandon spanking, all physical punishment, indeed, by the time this child is three, four or five. Accordingly this child will not be spanked often, will escape whippings entirely, and will not need to be punished very often in any other way thereafter.

Nevertheless, some punishments will be necessary even after five. Suppose you wish to be able to abandon corporal punishment very early. Then, as soon as you have trained your child to stay where he is put without being held or tied there, you can, in lieu of spanking, assign this child for punishment to sit in a certain place or chair, with a comfortable foot rest) for a definite time. Thirty minutes is a long while. Fifteen or twenty may suffice.

Before you begin, of course, to employ this kind of punishment, be very sure the child will not venture to leave the chair until the designated time is ended. Have the army and navy in reserve with the hope you will never need to use them. Choose a particular chair—you don't want him to dislike all chairs—in a room where you can see him all the while he serves his sentence.

Time Assigned Definite

And be sure the time always is definite. No indeterminate sentence. Then he will find it does no good to weep, argue, plead or promise. The clock cannot be changed by anything he says or does. As soon as he can understand, show him where the large hand of the clock must be before he may get down—all our children learned to tell time before entering school. In case he wishes to carry on a conversation, respond as if nothing unusual had occurred: talk to him, of course. But don't argue with him or explain why he is in the chair. Unless the reason for punishment is obvious to him it was ill-chosen. When the time has ended, tell him so, but do not ask him to promise not to "do so again".

In case the child at first says he wanted to sit there anyway, do not be baffled. Say nothing; let him sit. After a few more experiences in the chair he will offer no more such statements.

REFINEMENT—HUH!

A long time ago I grew a prejudice. It was a small one at first, but it found plenty to feed on and it grew and grew and sunk its roots into me, until at last it became a living part of the way I live and the way I think and the way I feel.

At one time I used to be ashamed of it and I tried to rid myself of it. But it's years now since I tried and finally I've realized that I like this prejudice of mine and don't care to love it. . . . Perhaps I'm proud of it. I don't know.

What is this prejudice?

Well, I'm prejudiced against Fake Refined People. Against ladies who must have their tea at 4 o'clock or life is spoiled. Against gentlemen who attend the opera and suffer if one singer in the chorus flats a few notes or is too fat. Against fathers—and this comes too close for comfort—who insist on their children being perfect all the time. Against people who can't endure ignorance . . . or slow thinking . . . or crudity of manners . . . or bad voices . . . or working people whose hands are dirty. Against all those delicate beings who can't endure to talk about the manure that makes the rose so lovely and its perfume so sweet.

I'm prejudiced against THEIR refinement and I can't help it. I don't WANT to help it. . . . I'm not prejudiced against the refinement itself. It's a fine thing for people to be sensitive and gentle and sympathetic about things that count.

But I don't like those delicate creatures who boast of their refinement and think that Raw Nerves are a sign of culture.

There ARE such people. I've known them and tried to live with them. They used to fool me, but they fool me no longer. They boast of their Refinement because they are not at home in this world. They are not complaining about the little irritations of living as much as about Human Beings. They are unhappy and snobbish or they wouldn't be so uncomfortable. It's Vanity, not Sensitiveness that's their trouble.

They do not look upon life as an Opportunity; they consider it a Personal Insult. So they label themselves Refined and accuse the rest of the race of Coarseness and Savagery and Brutality.

What good does that kind of Refinement do a world of men and women who are trying with all their might to be decent human beings?

Who COULD like it?

A GOOD ACTOR

A certain builder in one of the large eastern cities is one of only two men in his business in his community who have enjoyed any considerable prosperity in recent years. Whereas others have had to be content with a bare existence, he has been fairly active and has made a good income. Part of this success came because he is a good actor.

Recently he was observed on the street wearing a shirt into which the collar had worn holes. His coat and hat were shabby, and he was chewing a cigar, the outer covers of which were waiving in the breeze.

His errand at the moment was to sell a site of land and erect a house thereon, securing a potential profit of probably a couple thousand dollars.

Last year he erected an eighty-five thousand dollar house for sale, and, as he spent practically all his time on the property, talking to prospective buyers, he was an immaculate fashion plate. His costumes ranged from white linen suits to sports clothes of the best cut. His attitude seemed to be that it made little difference to him whether the property sold or not, and that any buyer would be required to pay the full asking price.

As a builder seeking a small building job, however, he chose to appear "up against it." He proposed to offer to do the work at sheer cost, since he claimed to be so reduced in circumstances that he had little overhead. Hence the old clothes and the battered cigar.

DEAR MISS MARKEL—At a dinner for four couples, how should the guests be seated so that neither two men nor two women will be placed together? MRS. S.

Answer—If the host is to carve, he must then keep his place at the head of the table and the hostess must move to the left, allowing one of the male guests to sit opposite the host. If the latter is not carving at a little dinner for eight, at which there is no guest-of-honor, he may relinquish his place thus allowing his wife to keep hers. At a large formal dinner the hosts should keep his place in honor of the woman at his right (the guest-of-honor).

At a supper for eight the hostess keeps her place because she pours.

Dear Miss Markel—What does one do with the spoon after finishing a dessert that has been served in a sherbet dish? When finger bowls are served, is it necessary to use them if one hasn't used one's fingers to touch any of the foods? E. C.

Answer—Place the used spoon on the plate under the sherbet glass. I think a great many of us use finger bowls more from habit than from actual necessity. The few foods that we might correctly touch with our fingers are of such a nature that no stickiness will result when they are picked up. Soft, well-filled sandwiches, layer cake with icing and similar foods must be eaten with the fork.

France To Keep Eiffel Tower.
Summer Skiing Popular Abroad.
Weather Bureau In Mid-Ocean.

By LESLIE EICHEL
Central Press Columnist

FRANCE LETS us know that the Eiffel Tower will NOT be torn down. It still is the most popular place in Paris for tourists. Nearly a million and three-quarters are expected to visit it this year, largely because of the exposition next door. Near its sumit, at the moment, a television station is being built.

Incidentally, two years hence France will observe the 150th anniversary of the French revolution.

Europe at that time charged that the "radical" American constitution was a "grave danger" to European peace, that communes would be established all over Europe if "red" France were not isolated.

One hundred and fifty years later we find conservative Americans blaming the New Deal and unionization on "red" Russia—and "red" Russia in fear of Fascism. And we read in conservative English papers that the American constitution is quite behind the times and will have to be amended if the United States is to keep step with other nations.

Queer world, isn't it?

* * *

PROGRESS

Although politically the world may travel in cycles, it has not hesitated in the realm of science.

The French are establishing the first weather bureau in the mid-Atlantic. A French steamer, the Carimare, is to cruise around within a certain radius and flash weather reports to transatlantic aviators.

This floating weather station is sponsored by the French ministry of air, "Air France" (French airline company) and the French line (steamship company).

France is not quite the decadent nation that some try to make it out to be.

* * *

SUMMER SKIING

Skiing has become a summer sport, now, in the French Alps. This is made possible by a new highway, which permits a passage across the highest Alps, from Nice to Evian. This highway reaches a height of 9,141 feet.

While in the lower reaches flower battles are held ski parties are held in the upper reaches. At the Pers Needle, which has its base at Iseran, the summer sun had little effect on the snow and ice.

France, in its public improvement program, has built many new highways through hitherto "impenetrable" regions. This gives the French army, still the second largest in Europe, greater facility.

Incidentally, 148 years after the revolution, France still has the most democratic government in Europe.

We hope to write a few new facts concerning other countries from time to time.

ARMY PRECISION.

When an army like the Fourth Army assembles for maneuvers there is a reason for the machine-like precision in its mobility problem, coordinated arrival of units at the field camps, daily supplies of fresh perishable food and adequate ammunition. For behind the problem stand Army supply services.

This summer the Fourth Army of approximately 60,000 men concentrated at four points: San Luis Obispo, California; Fort Lewis, Washington; Fort Riley, Kansas; and Camp Ripley, Minnesota, will test every department of the Quartermaster Corps in its field program.

As carefully worked out as any shipping plan for a giant corporation is the troop movement table for the Fourth Army. Working with the Military Transportation Bureau in Chicago, rail facilities are carefully studied and every unit to move to camp travels according to pre-arranged and coordinated schedules. In time of peace this schedule must fit in with and not interrupt the regular passenger and freight service.

The majority of the Fourth Army will assemble by train, but many will go over the vast network of roads by truck. Completion of one of the finest system of roads in the world has given the United States exceptional mobility in this direction.

MONDAY, AUGUST 9

August 9 In History—The most popular sport in the United States is not baseball, football or golf. It is fishing.

That news would be no surprise to Izaak Walton, born August 9, 1593, the London linen-draper who yearned for years for green fields and quiet streams, retired at 50 to live in the country. Exultant in his satisfaction, he was inevitably moved to advise others to do likewise. The resultant "Complete Angler, or Contemplative Man's Recreation," the first thing he ever wrote, was published when he was 60. He composed nothing else, yet he is one of the world's immortal writers.

Written in the form of dialogues between anglers, hunters, falconers, milkmaids, etc., there are observations on various kinds of fish, their habits and whereabouts, and the best methods of securing them. But it is no mere textbook for fishermen alone. There are charming descriptions of rural scenery, precepts, recommending the practice of patience, humility, contentment and other virtues; and old lyrics, songs and ballads, all of which make it a delightful companion for the prisoners of cities.

WASHINGTON AT A GLANCE

Special Session May Be Necessary

Legislation Left Over From Current Term Will Not Be Completed Next Year

CAMPAIGNS WILL FORCE CLOSING

Central Press
Washington Bureau
602 Times-Herald Bldg.

By CHARLES P. STEWART
Central Press Columnist.

WASHINGTON, Aug. 9.—Whatever legislating is left over from congress' current session, to be attended to when the lawmakers reconvene next January, is extremely unlikely to be disposed of then, either.

Maybe President Roosevelt will call an extra session in the meantime—say in October, to take care of the farm legislation, as Majority Leader Barkley assured the cotton and grain senators.

If so, a certain amount of unfinished business perhaps will be cleaned up during two or three autumn and early winter months. But not much can be accomplished during January and February of 1938 alone.

And mighty early in March Capitol Hill assuredly will adjourn again. That is a safe bet. It is a safe bet, for 1938's congressional primaries will begin in April, and the lawmakers will want at least a few weeks to do missionary work among their home folk, to insure their respective renominations. Indeed, it is putting it mildly to say that they will WANT a few weeks; there will be no stopping them.

* * *

CRITICAL PRIMARIES

Moreover, these coming primaries will be exceptionally critical.

The campaign will be largely between "pro" and "anti" New Deal Democrats.

Most Republicans will be renominated. A Republican must feel that he is pretty solidly intrenched in his home state or district to have won the last time.

A Democrat, however, has done one of two things:

He has supported the Roosevelt administration or he has fought it.

His bailiwick must be Democratic or he would not have been elected in the first place. But has he been the right kind of a Democrat to suit his Democratic constituents? He does not know. His renomination is what concerns HIM. If renominated, presumably he will be re-elected.

April's primaries mean more to him than November's election day does.

This always has been true of the south. It is true of the north today also.

* * *

CONGRESS COULD RECESS

Parenthetically:

If congress is so tired that it cannot stand the strain any longer, it can recess. It can recess, for instance, from the middle of August until October or November, illustratively.

Thus getting a good bit of rest.

But if congressmen recess the assumption is that they are here all the time; they do not get "mileage" for coming here from home and going back again.

If they adjourn and return for a new session or if they are called into extra session they DO get "mileage" for the round trip. This "mileage" is at a far higher rate than what the round trip really costs—unless the legislator chooses to travel like a plutocrat.

In other words, the difference between what mileage actually IS and what the congressman PAYS leaves a margin in his favor.

If he lives in Richmond or Baltimore or otherwise hereabouts, it is a bagatelle. If he lives in the far distant spaces from Washington it is a substantial sum.

Therefore that kind of congressmen do not like to recess. They prefer to adjourn—and get a sizable chunk of extra money.

They may not think of this, but many folk suspect that they do.

* * *

MILEAGE PAY COUNTS

Thus an extra session is not altogether an improbability.

The administration doubtless realizes that congressmen like to get their mileage and is disposed to be accommodating.

Anyway, that is the difference between a recess and an extra session.

Correct this sentence: "We still owe the doctor forty dollars," said she, 'so we don't spend a penny for mere pleasures."

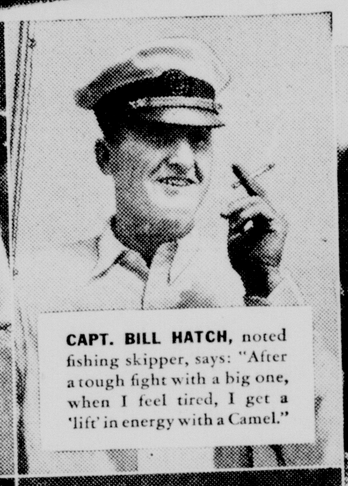
THERE'S PLENTY DOING when Bob Bullock's in the game! Follow him. (He's wearing the dark shirt.) Bob is one of the great No. 3's of polo—plays this key position with strategy, skill, and courage!

RIGHT ON THE NOSE! Consistent, accurate hitting makes Bob Bullock a dangerous scoring threat. Above, he rides an opponent out of play—at the same time makes a well-timed shot to the uprights at blinding speed!

CLOSE QUARTERS! Bullock is famous as a hard-riding defense player too. Above, he's playing to retrieve the ball for his side. Like Lou Gehrig (the Iron Man of Baseball), and Glenn Hardin (World's Champion Hurdler), Bob Bullock has a decided preference for Camels. He's smoked Camels for over a decade.

HELEN HOWARD, diver, realizes what healthy nerves mean. Does she smoke? "I smoke as many Camels as I please," Helen says.



CAPT. BILL HATCH, noted fishing skipper, says: "After a tough fight with a big one, when I feel tired, I get a 'lift' in energy with a Camel."

Naturally Bob Bullock appreciates mild smoking

POLO enthusiasts will agree with Mr. Bullock that it takes healthy nerves to play polo—nerves that don't fail in a pinch. Bob Bullock says: "Camels deserve the blue ribbon for mildness. I've smoked Camels every day for years. They never jangle my nerves!"

Mealtime (*right*) finds Bob enjoying Camels—*for digestion's sake.* "Smoking Camels at mealtimes and afterwards adds a world of enjoyment to eating," he says. "'I'd walk a mile for a Camel!'"

For mildness, flavor, and fragrance—make it Camels! Camels costlier tobaccos are *naturally* mild, fine-flavored, and fragrant.

AUCTIONEER. "I work at a tense pace," says John M. Mitchell. "Jittery nerves? No! My cigarette never gets on my nerves. It's Camel."

The Pennsylvania Power Company has recorded several rights of way for extension of lines at the register and recorders office. The rights of way were acquired from Mrs. Luella G. Neely, of Glaingrove Twp. Nels Anderson, Hickory Twp., and Mont L. Black, William Morris and Boleslaw Noss, of Neshannock Twp.

Mary Miller of 514 Bell avenue, has filed an application at the prothonotary's office for a divorce from her husband, Michael Miller of 13 North Liberty street, on the grounds of cruel and barbarous treatment. The couple was married in Austria in September, 1910.

There has been a gradual increase during the past four months of outdoor relief, as shown by the books of County Controller, Frank Hill. This is particularly noticeable in the amount of food furnished, the expense for the months indicated being as follows: April, $2,295.98; May $2,718.64; June, $2,926.09; and July $3,108.79. Rents show the following increase, April $612.10; May $692.75, June $668.93; July $712.60. Coal bills have shown a decrease from April, when the amount paid for fuel was $970; May $166.20; June, $227 and July $106. There has also been a decrease in gas and electric bills due to warmer weather.

According to statistics received by Register and Recorder, William R. Hanna, from the research department of the federal Home Loan Bank, there has been a decrease in the number of non-farm foreclosures of property in the twelve districts during the past six months as compared with 1936 for the same period.

Under the will of the late Chas. G. Krueger, of 112 Smithfield St., probated at the register and recorder's office, all of his property is left to his life, Margaret Krueger, who is also named as administratrix. Kenneth R. McClaran, late of this city, also left all of his property to his wife.

Registration Clerk, Thomas Edmunds, reports that a number of local people employed at Harrisburg and by the Federal government, have presented themselves for registration here without the proper credentials and as a result could not be registered. The law requires that all state employees must bring with them a certificate from the head of the department where they are employed before they can be registered. The same rule applies to Federal employees. The certificate, which can be had in printed form must set forth the former place of residence of the applicant, and the date when he or she first entered the employment of the state or government.

An unusual case was heard in court Saturday in which a mother was given the right to adopt her own son 21 years old. Owing to certain circumstances the son had been adopted by other parties when quite young. The mother had since remarried and wanted him back. The couple which had adopted him consented to the re-adoption.

It has been found at the registration bureau that some people who had registered and changed their places of residence, had gone before Alderman Brice when the recent registration was held at his office and re-registered with their new address. This makes it that the registration bureau has two cards for the same person. The bureau has mailed notices to such persons to come to the registration office and withdraw the incorrect registration blank. This must be done before August 14, if the registrant wants to vote at the coming primary.

Girl Will Get Heroine Medal

Cevilla Sallot, 12, Of Erie, Will Be Honored At Boston Convention

SAVED LIVES OF THREE IN FAMILY

(International News Service)

BOSTON, Aug. 9—The most nervous and excited person attending the annual convention of the Legion of Valor today was little Cevilla Sallot, 12 year old fifth grade pupil of Erie, Pa.

Surrounded by several hundreds of this country's greatest living war heroes—members of the army, navy and marines who wear the highest decorations for valor under fire—the little heroine in her white muslin dress at times seemed on the verge of tears.

She came here as the guest of honor of the convention and on Wednesday night will be presented with the national gold medal of the League of Valor, awarded for self-sacrifice, courage and quick thinking.

Disregarding her own safety, Cevilla plunged into her gas and smoke filled home last December after a hot water heater exploded and dragged to safety her mother who was ill and her small brother and sister.

Another outstanding figure was Lieut. John McCloy, U. S. N. retired, of Leonia, N. J., twice awarded the congressional medal of honor

Attorneys Wallop Court House Nine At Picnic Game

Even The Clouds Wept When the Score Of 31 To 5 Was Announced

Court house employes and attorneys who held a picnic at Moose park in Butler county Saturday were all able to be on the job again today, although some of them were pretty sore from the strenuous exercises in which they indulged.

A ball game was the big attraction at which the court house employes went down to ignominious defeat. When the score was counted the lawyers had 31 and the court house bunch 5. Rain held off until the close of the game, but when the final score was announced the clouds wept.

Judge James A. Chambers, former Judge R. L. Hildebrand, Roy Jameson and County Detective Sharp Leslie furnished plenty of entertainment with their wild horseshoe pitching.

When the remains of the dinner were gathered up it was found that the picnickers' eyes had been bigger than their bellies and that there were several baskets full left. The picnic committee, composed of Elmer Nesbit, Andy Dodds and Hugh Graham, donated the surplus to the Margaret Henry Home. There was sufficient to provide a big dinner for the kiddies Sunday.

CONGRESS SPEEDS BUSINESS FOR ADJOURNMENT

Leaders Battle For Legislation

Seek To Speedily Pass Administration Program Of Present Session

SESSION MAY END BETWEEN AUG. 21-25

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

WASHINGTON, Aug. 9—The seventy-fifth congress roared down the adjournment trial today with the leaders fighting to block every movement that might interfere with final enactment of President Roosevelt's legislative program.

Final obstacle to adjournment appeared to be on the sugar quota bill, now before the senate finance committee, which the administration opposes in its present form. The house imposed quotas on the import of refined sugar from Puerto Rico and Hawaii over the objections of the interior department.

Administration leaders hoped to strike out these limitations in the senate but leaders of the sugar bloc predicted they would be retained. This brought threats of a veto from the president, in which event the sugar bloc leaders believe they can enact the bill over the president's objections.

Senate Near Completion

The senate was nearer completion of its duties than the house. Three important administration bills, already passed by the senate, were pending in the house. There were the mild-wage hour bill, the emasculated Wagner housing act and the senate substitute for President Roosevelt's original supreme court bill. The substitute proposed a series of mild procedural changes in the lesser federal judiciary.

There was wild talk in house corridors of modifying all three bills in keeping with white house wishes. Administration leaders were putting a "soft pedal" on amendments and hoping to secure house approval of the senate bills, practically unchanged, to avoid further legislative controversies that might extend the present session indefinitely.

Having Some Trouble

The administration was having some trouble in the special senate reorganization committee in securing approval of the bill for the new presidential secretaries. The argument advanced against the measure was that the secretaries would be used as six more government lobbyists, to influence congress on legislation.

There appeared to be an agreement to postpone consideration of farm legislation, with control of crops, until next year. Rumors prevailed the senate, in ordering a sweeping inquiry of farm problems, would instruct its agriculture committee to report a farm crop control bill in January. This procedure was reported acceptable to the president, who would agree then to extend government credit to finance loans on this year's cotton crop.

Administration spokesmen continued to predict an adjournment of congress between August 21 and 25. There were possibilities though that an early solution of the sugar issue might send congress home sooner.

Polish Union To Picnic August 15

Plans were announced today by the Polish Central Union for a picnic to be held at Lakewood Beach on Sunday, August 15. President W. Jakowicz has selected a committee to handle the details of the affair and a crowd is expected. The Polish Central Union is composed of various Polish organizations in New Castle and Lawrence county.

True Ivorites Open Convention Tuesday

IDRIS WILLIAMS

Opening on Tuesday, August 10, in the First Congregational church, the True Ivorites of America will hold their annual convention in New Castle, lasting for three days.

In private life he is the supervisor of mortgages and real estate for the Citizens Bank & Trust company of Utica, N. Y.

In addition to the business sessions a number of entertainment features have been planned for the visiting delegates to the convention.

Hotel Workers Meet Sunday Afternoon

Meeting in the Trades and Labor Assembly rooms on Sunday afternoon, the Hotel and Restaurant Employes International Alliance and the Bartenders International League of America held a business meeting.

Recently the association was reorganized and William Haley elected president. A. J. Wimer was elected secretary and treasurer and James Daley business agent. At the meeting Sunday, Alec Skunder, a leader in trade union activity in this county, spoke.

MARCONI'S FAME AWED M'INTYRE

By O. O. McINTYRE

NEW YORK, Aug. 9.—Diary: Up and dulled a zest for breakfast munching salt water taffy Shiela Barrett sent from Atlantic City. Then at my mail and found notes from two of my favorite editorialists. Dr. John H. Finley of the Times and Abel Green of Variety.

O. O. McIntyre

Depressed most of the afternoon over so many excellent journalists being out of employment and mentally at such ends. So away to watch the ball players at the Polo grounds and went down to the press box, albeit too timid to enter. But waved to Grantland Rice.

Dined at home on a cold chine of beef. Afterward motoring with my wife to the Riviera Cafe but so ornate and jazzy-looking we continused to drive along the Jersey highways, passing the estate of the Lindbergh kidnaping. And I sang Scottish madrigals, with dulcet poignancy.

Among the little known restaurants highly bespoke by choosey gourmets is The Bat near the Provincetown Playhouse, in McDougal street. It is Italian and conducted by a proprietor who waits on tables and whose wife does the cooking. The place is not interested in transient trade and, unless one is known, the service is aloof, casual. For this reason there are rarely more than 20 diners. Pirandello, the playwright, does all his entertaining there when in New York. And among patrons are Toscanini and the Italian banker A. P. Giannini.

Red Beach is among the few successful authors who has been equally successful riding a hobby as a side line. Some years ago, Beach took over a large farm at Avon Park, Florida, for raising citrus fruit, vegetables and flowers. He has had such success growing gladioli bulbs that he has just leased a tract of land at Ft. Myers where he will set out 2,000,000, making him one of the biggest growers of the kind in America.

Personal nomination for the most attractive of magazine covers—those on Esquire.

Few men of enormous achievement so touched off my hero worship is did Marconi. One evening after theatre in London I stepped in the Savoy lift as the only passenger. The operator started, then stopped and swung upon the door for a hurrying arrival. As we shot upward, I glanced into the well-known face of the inventor and blurted an involuntary, "Marconi". I made a confused apology, explaining my admiration and my pleasure at recognizing him at close range. Like all gentlemen of true greatness, he appeared genuinely flattered and when we met afterward in the halls or foyer bowed graciously.

No visitor to Chinatown so excites that quarter as Anna May Wong. She is, when in town, a frequent diner at the Port Arthur and the minute she arrives at Chatham Square the news seems to have reached each warren by grapevine. Every denizen is out front or leaning out windows to watch and murmur welcome.

Miss Wong has an amazing personality, indeed, that attracts in any part of town. New York is a bit too cosmopolitan to do any head turning over a Chinese, Japanese or even a turbaned maharajah. Yet Miss Wong at the play, in the cafe, or along the street, becomes the cynosure of all eyes. Even at blase "No. 21" I have seen her entrance bring eating, talking and showoffry to a full stop.

Bagatelles: Sidney Franklin, the Brooklyn bull fighter, is a No. 1 caricaturist....In Alcatraz prison, the best lighted corridor is called "Broadway"....Frank Crumit has memorized more than 4,000 songs.. Eddy Duchin, who still wants to be a small town druggist, has garnered more than a half million, leading an orchestra for society to dance... The Duke of Windsor's favorite midnight lunch is a piece of hot gingerbread and a glass of chilled milk... George Palmer Putnam lost 19 pounds during the search for Amelia Earhart's plane.

Charlie Hughes has a friend whose wife is a constant patron of every new fortune teller faker. The husband calls her "the original seer sucker."

Noted Here And There In Other Newspapers

Floating on a small raft, 10 miles at sea off a San Pedro, Calif., a tiny "Puss in a Boat" was rescued by fishermen who found her bravely defying death as she clung to her bobbing craft. The seagoing cat evidently had been cast adrift on the two-by-four sail craft by her small boy owner.

Patrolman William Koster wrote a "fish" story on the police blotter of his New York City station today. He arrested Frank C. Fisher for casting on Lexington avenue where there are no fish. Fisher fished thru the transom of a liquor store with rod and reel to which he had attached a rope with a noose on it. Patrol Koster decided it was a fishy business and declared it a closed season after Fisher had fished out several bottles of rum and whisky.

George Brantley, 80-year old resident of Hickory Hollow, Tenn., advertised for a wife in a newspaper and got about 100 letters in one day. "I sat down and answered some of the letters from the distant parts, but I figured it was easiest to go over the ridge and answer Mrs. Brown's letter in person," Brantley explains. And so he married the widow with six children. Now they have their own lusty six-weeks old child and Mr. Brantley is building the cradle himself.

Merle Koeppler, 8, on his first fishing trip at Green Bay, Wis., felt awful when the fish on his line got away, hook, line and sinker. His mother, to assuage Merle's disappointment, made a rash promise. "Never mind," said she, "mother will catch it for you." A short time later she landed a fish. In it were the missing hook, line and sinker.

From Hartford, Conn., comes the news that scarecrows have returned to sartorial dignity and are wearing swallow-tail coats and toppers. A survey of the countryside has shown the silk hatted scarecrows to greatly outnumber the "tramps." Farmers this year have taken pains to make sure their freshly painted homes and outbuildings are not marred by ragged sentinels in the fields.

Logs buried in the Blackwater river bed at Parsons, W. Va., twenty years ago during the lumber boom days of the Davis-Jennington section, dried in the sun today and promised money for a half dozen salvagers. Edward Miller and E. G. Meyer conceived the idea of recovering the timber, about 100,000 board feet, which sank to the bottom of the river two decades ago. Some of the logs, mostly spruce, beech and maple, were preserved so well they will be sold for lumber. Others will find their way to a pulp mill.

Paris fashion experts have raised their voices again, with the coming of the fall season. "Off with the old" they cry, "and on with new—provided there isn't too much of it." In other words, the keynote this year is "away with all inhibitions." The new fall style reveal how scant clothes may be and still be clothes. The mold is 'startlingly frank:" The colors are riotous.

Proposed Route To Aid Traffic

South Penn Tunnel Highway Will Aid Motor Transportation In State

Definite prospects of increased safety, speed and efficiency of highway transportation across Pennsylvania are seen in the projected South Penn tunnel highway, S. A. Mooney, president Lawrence county chapter of the Pennsylvania Motor Truck Association, Inc., asserted today.

Under supervision of the Pennsylvania turnpike commission, created by the last session of the legislature, the proposed highway will be 164½ miles long, in which there are only 40 miles of curves. The roadway will be of the modern super-highway heavy type, two traffic lanes divided by a planted center strip. It is expected to shorten driving time between Pittsburgh and the East by several hours.

"The tunnel highway will bring identical benefits to Pennsylvania that the DuPont highway has brought to Delaware. Not only the motoring public, but all business and industry, will share in the contribution it will make to the general welfare. Our very great dependence upon highways for almost everything makes this type of main route an absolute necessity, as Pennsylvania motorists will find to their satisfaction when the tunnel highway is completed."

Two Injured As Auto Strikes Wagon Saturday

Wilmington Township Farmers In Accident With Farrell Machine Saturday

While making their return journey from New Castle to their home in Wilmington Twp. Saturday evening, the wagon of Mr. and Mrs. Jos. Hostetler was forced off the road and partially demolished, on the Wilmington road.

Injuries sustained by the Hostetlers included an injured leg for Mr. Hostetler and head injuries for Mrs. Hostetler. Their wagon was struck by the automobile of John Jurino, of Farrell and forced from the road.

According to witnesses the Jurino machine was enroute to Farrell and attempted to pass the wagon. In seeing that this would be impossible Jurino headed his machine for the ditch to avoid collision with the wagon, but his machine struck the wagon and carried it with it into the ditch near the Clair Riddle service station.

The accident occurred about 6 o'clock Saturday evening, as the Hostetlers were returning from New Castle. Their wagon was loaded with food and other articles which had been purchased in town.

An iron bar on the wagon was run into the side of the horse, but his injuries were not serious.

Dickey Candidate For County Judge

Seeks Nomination As Republican Candidate In September Primaries

THOMAS W. DICKEY

TO THE REPUBLICAN VOTERS OF LAWRENCE COUNTY:

I am a candidate for the office of Judge of the Several Courts of Lawrence County, Pennsylvania, at the Primary Election to be held on September 14th, 1937

No public office, within the power of the people to bestow, is more important to their welfare than the Judgeship. Judicial fitness depends upon a wide experience in the practice of law plus a mind elastic enough to accommodate itself to conditions in a rapidly changing world. In over thirty-four years of practice, I have tried cases in every court of record. In that practice I have tried to serve my clients to the best of my ability, remembering that as an attorney I too had an interest in seeing that justice was done.

I have been a resident of Lawrence County all of my life. As a citizen of New Castle, my services have always been at the disposal of the public in any activities pertaining to civic betterment in order to promote the welfare and prosperity of the community.

Two years ago I was a candidate for this office at which time I received a very creditable vote. Believing that I am qualified by training and experience, I again ask your support. If nominated and elected, it shall be my sacred trust to hear all cases impartially, dispense justice fairly, and so conduct myself upon the bench that at the expiration of my term I can honestly say that justice has been served.

THOMAS W. DICKEY.

State Payroll Being Assessed

Report Jobholders Of 1935 Are Being Required To Pay Assessments

(International News Service)

HARRISBURG, Aug. 9.—Indicating the tenor of the 1937 elections, reliable reports had it today that Dauphin county jobholders on the state payroll who held political jobs in 1935 are being assessed for Democratic party contributions skipped over in that year.

The assessment, striking particularly at "holdover" employes, placed the administration somewhat in the role of "Indian giver."

No assessment was made by the Earle administration when it came into power in January, 1935. Employes were merely "invited" to contribute to the Democratic war chest that year.

The assessment, with but several county exemptions, is three per cent for jobs paying $1,200 or less, five per cent for salaries over that amount.

The "kickback" for 1935 apparently made its first appearance in Dauphin county, where the Democratic organization faces one of its strongest opponents in a Republican camp led by M. Harvey Taylor, former G. O. P. state chairman.

Employes who two years ago made voluntary contributions less than the present percentage, it was learned, now are being assessed the full three or five per cent contribution. Any voluntary payments already made for 1935, however, were being deducted from the assessment, it was learned.

When selfish and cruel people become sweet and generous, it means they have the opposition licked and tied down.

The hard-boiled girl says: "I can take care of myself." But how dark the world seems when the man says: "O.K. Do it."

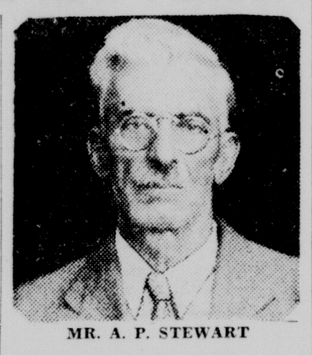
WAMPUM MAN TOOK "VENDOL" AND FEELS LIKE NEW PERSON

Had Gassy Stomach, Cramps, Pains, Acid Risings; Always Felt Bilious, Dizzy, With Spots Before Eyes And Was Very Nervous. Says Vendol Relieved Constipation Which Changed Everything.



MR. A. P. STEWART

Some of the best known men and women in this city and nearby vicinity are taking Vendol and coming forward with remarkable statements praising and endorsing this great mixture of roots, herbs and valuable Alkalines, now being introduced at New Castle Drug Co. by the Vendol Man. Mr. A. P. Stewart, well-known citizen of Wampum, Pa., near this city, called a few days ago and made the following statement describing the great relief he got from Vendol and recommended it to all who suffer the same way.

"I had attacks of indigestion, with a lot of gas on the stomach that caused cramps and pains with shortness of breath. I felt bilious, dizzy, with spots dancing before my eyes and I'd have splitting headaches. My nerves were shaky and kept me awake long after I went to bed. I felt tired and worn-out all the time and was constipated every day.

"I hadn't been able to get relief no matter what I did. Then I heard about Vendol and started taking it along with the little Vendol laxative tablets and this treatment gave marvelous relief from my constipation and this has made such a change in my stomach condition that I feel like a new person.

"I now eat my meals and never have that tight, bloated feeling in my stomach because Vendol has cleared away the gas that caused this suffering. My strength and energy has improved since my food agrees with me, nerves calmed so I sleep well and I never feel dizzy any more. I'm glad to pass the good word about Vendol and hope many people will benefit by it." . . . . . .

What Vendol did for this hometown person it will also do for you so don't delay getting some. Come to New Castle Drug Co., 35 E. Washington St., and let the Vendol Man tell you all about this medicine. The New Castle Drug at 24 N. Mill St., Schweitzer's Pharmacy in Ellwood City and all other leading druggists sell and recommend Vendol.

Rev. E. G. Russell Heard At Cascade Park Union Service

Service Sunday Evening In Charge Of Reformed Presbyterian Church

"What Must America Do to Be Saved?" was the subjet of Rev. Elmer G. Russell's sermon at the union Cascade Park service Sunday evening.

The Reformed Presbyterian pastor took his text from John 3:16. He declared that America must repent many things—Desecration of the Lord's Day, liquor traffic, divorce—religious home life must be restored and America must yield allegiance to Christ if she is to be saved.

It was a thoughtful, well prepared and earnestly delivered message. This was the new Reformed Presbyterian minister's first appearance at a park service. He and his church members had entire charge of the program. An A Capella choir directed by David W. Rees was one of the pleasing features. The order of service was as follows:

"Hallelujah! Praise Jehovah," and "Lord, Thou Hast Been Our Dwelling Place," choir.

Invocation—Rev. Thomas B. Shearer.

"The Earth and the Fullness"—Choir.

Scripture, Second Psalm, and prayer—Rev. Philip C. Pearson.

"From My Sins Hide Thou My Face"—Choir.

Announcements—Rev. Pearson.

Offertory, "The Lord Is Good and Just"—Choir.

Sermon—Rev. E. G. Russell.

Benediction—Rev. Russell.

Next week the Central Christian church will have charge of the service and the pastor Rev. Thomas B. Shearer, will preach.

Donald Budge Is Greatest Tennis Player, Says Pete

Non-Playing Davis Cup Captain Says "Budge Will Never Turn Pro"

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, Aug. 9.—Don Budge, winner of the Wimbledon championship, winner of the Davis cup practically as a one-man team and as yet unbeaten this season against the finest amateurs in the world, "probably will never turn professional," Walter Pate, non-playing Davis cup captain, declared today in no uncertain terms. In even less uncertain terms, he hailed Budge as the greatest player he had ever seen during his 40 years of tennis.

Will Not Turn Pro.

In a few terse words, therefore, the gentleman at once disposed of an implied threat against the newly-won Davis cup and dismissed the current professionals as being, by contrast, slightly second-rate. Said he:

"Budge could beat either Ellsworth Vines or Fred Perry tomorrow. He not only is the greatest player in the world today; he is, in my opinion, the greatest of all time—and that goes for Bill Tilden, Maurice McLaughlin, Norman Brookes and the rest."

Admitting that the world's top hand of amateurism would have to stand a lot of pressure from the box office boys in the next few weeks, Pate nevertheless seemed certain that Budge neither would fall now nor ever. Why? It appeared there were several things against it.

In the first place, it very suddenly develops that the young man has had an "executive and advisory" connection with a sports goods house for the last 18 months and financially is doing a little better than the best he can; in the second, he has promised to consult with Pate before taking any step that will affect his amateur standing; in the third, he saw Tilden going through the professionals' or "service entrance" at Wimbledon.

Not Worth It.

"After noting this and other things, including the way pros are looked down upon abroad, he told me it wasn't worth $100,000," Pate went on. "Besides, he sees a chance to make more than that in the long run as a business man."

Briefly and to the point, Promoter Frank Hunter's promise to "work on" Budge as soon as he got back is a little on the belated side. The fact is pretty clear that the young man has been "worked on" before he got back.

Saks-Nobils To Battle Tonight

Radiators Oppose Johnson-Bronze And Weavers Meet Strollers

Featuring tonight's list of City Softball League battles is the Saks-Nobils contest scheduled for Gaston Park.

Al Ritchie will take the knoll for the Saks, while Joe "Lefty" Isabella will hurl for the Nobs. To date, the Saks hold a lone win over their foes, while the Nobs have tripped the Sakers on three different occasions. The pennant-bound National Radiators will seek their 41st victory when they lineup against the Johnson-Bronze club at B. & O. field, South Mill street, while the Weavers will meet the East Side Strollers, at Rose avenue field.

Establish Record

While the National Radiators have set a record that may stand for years in Lawrence county, the Johnson-Bronze have established some kind of a mark for total losses in league circles. Manager Louie Pascarella's aggregation has lost 30 games so far. Fifteen of the defeats were recorded in the first half race, while the other 15 were registered during the second half. Despite the string of upsets, the Johnson-Bronzers take the field like a team battling for first place honors. The Bronzers are noted for being one of the boldest teams in the circuit.

Yankees Again Defeat Indians

Lead American League Flag Race By Nine And One-Half Games

GIANTS-PIRATES SPLIT TWIN BILL

By LAWTON CARVER
International News Service Sports Writer

NEW YORK, Aug. 9.—Beginning tomorrow, Boston will be the center of the American League pennant race, a high-sounding procedure which really has been somethingless than an empty formality for weeks.

The Red Sox are in second place and will be entertaining the leading Yankees, but the series won't prove much of anything, except perhaps that the Yanks still can win the flag by as wide a margin as they did last season.

Yanks Top Indians

They are 9½ games in front and keeping up a terrific pace, while the Red Sox, after going through 12 straight victories, fell off yesterday, the Detroit Tigers and Chicago White Sox, making up the rest of the first division, are floundering.

Today was an open date in the majors, following a strenuous weekend that saw the Yanks stretch their win streak to eight straight. Without the aid of a single home run, they beat the Cleveland Indians yesterday, 6 to 5.

Meantime, the Red Sox and the White Sox were splitting, the former winning the opener, 7 to 6, and Chicago taking the nightcap, 13 to 0. In a game halted by the Sunday law in the eighth, Whitehead hurled the shutout.

Macks Win Two

Detroit took its game with Washington, 5 to 1, in five innings, the renowned Mr. Poffenberger hurling the victory, while in a gripping struggle down in the cellar, the Philadelphia Athletics threatened to climb all the way to seventh place by beating the St. Louis Brown, 5 to 4 and 7 to 3.

The Chicago Cubs continued to make the pace in the National League and increased their margin over the Giants to six games.

Tex Carlton turned in a one-hit game in the opener to shut out the Boston Bees, 3 to 0, and Root, Parmelee and Shoun collaborated to give the Cubs the nightcap, 3 to 2, Fette going the route to defeat.

Giants-Pirates Split

Melton pitched the Giants to a 10 to 2 victory over the Pittsburgh Pirates, but Weaver hurled a 3 to 0 shutout for the Bucs in the nightcap, allowing the Giants only three hits.

The St. Louis Cardinals beat Philadelphia by a 3 to 2 in the first game of their double-header, but were held to a 6-6 deadlock in a 12-inning nightcap, most important feature of which was Dizzy Dean's demise before the finish.

Cincinnati downed the Brooklyn Dodgers, 6 to 4, then played to a 1-1 draw in a 10-inning second game.

Firemen Still Lead In League

Have Not Lost Game In Second Half, Colored Elks, Ryantown Tied

The Sixth Ward Firemen still continue to lead the City Baseball league with three wins and no defeats to date. The Colored Elks and Ryantown teams are in the runner-up spot with three wins and one defeat apiece.

There were a couple of upsets on Sunday, the Elks taking the measure of the West Pittsburgs and the Ryantown team whipping the mahonings at Ryantown in a 13-inning engagement.

Colored Elks Take Victory

Score Is 3 To 1 As Colored Elks Upset West Pittsburgs.

Sammy Gray had a baffling curve breaking cleverly yesterday afternoon at the West Pittsburg field as the Colored Elks upset the West Pittsburg first-half champs 3 to 1 in a City League battle.

Gray held the champs to five hits and fanned seven batters. He was opposed by Tonsetic who allowed 12 hits and fanned seven men. The heaviest hitting in the contest was done by Moore, Harvey, Preston and Rowlands.

James Markey and Tonsetic were the only West Pittsburgians able to get more than one hit off of Sammy Gray. The vicory keeps the Elks in the running for the second-half flag. The team is managed by Ernie "Honey Boy" Paige, and they are playing a fast brand of baseball.

Regulations On Antlerless Deer Season Are Given

Game Warden Frank L. Coen Receives Information On Coming Season

Information relative to the short and rigidly-controlled antlerless deer season which has been declared this week, has been received from the State Game Commission by Frank L. Cohen game warden in the local district.

The season has been declared in order to maintain the size and quality of the animals themselves, and to keep the heads down to the number necessary to maintain an adequate food supply, Major Nicholas Biddle, president of the Game Commission announces.

Special permits costing $2 will be issued by the Game Commission to control the allotments and only a certain number of antlerless deer may be taken in each county, based on the condition of the herd in that area.

This special season will occur on November 25, 26 and 27 in advance of the regular buck season. The special permit feature is expected to serve two purposes; first, to protect the future supply of deer in all of the regions affected, and second, it will enable farmers and orchardists, who are suffering crop damage, to help remove the cause. More complaints of deer damage to crops and orchards have been reported this year than for several years past.

Antlerless deer may be taken without regard to sex, size or weight but no excuse will be accepted from individuals who shoot a spike buck, and no sportsman should ever kill a fawn, the game commission states.

No antlerless deer can be hunted in Lawrence county, nor Mercer county. The allotment in Butler county is 200, Venango county, 500 and the number ranges upwards to 1,500 in Sullivan county.

Ryantown took a 13-inning City League game yesterday from the Mahoning A. A. team at the Ryantown field before about 1,000 fans. Old "Fiz" Rodenbaugh a veteran of many years featured the game with as fine relief pitching as seen this year in the league. The score was 4 to 3.

Rodenbaugh relieved "Dolly" Hartman in the seventh and was never in trouble for the next six frames. He fanned eight players. Hartman whiffed four while he toiled on the hill. He gave way to Rodenbaugh due to the intense heat.

P. Russo was on the knoll for the Mahonings and was found for 18 hits. Paul Morrison, Koszela P. Russo, Perretta, Russo, Tommello and Neyman did the heaviest hitting in the game.

It was the longest game played in the city league to date.

Harmony Young Man Dies In Hospital Early Sunday Of Fractured Skull

WAS INJURED AT ZELIENOPLE

ELLWOOD CITY, Aug. 9—Eugene Sitman, aged 23, of Harmony, Pa., died in the Ellwood City hospital about 2 o'clock Sunday morning, of injuries alleged to have been inflicted during an argument in a bar room at Zelienople, Friday evening about 10 o'clock.

Dr. M. E. Headland, coroner of Butler county, District Attorney Lee C. McCandless, County Detective Paul Smith, and state motor police George A. Hartzell and A. S. Rovosky, of Butler county, who have been interrogating witnesses, stated at noon today that a conference would be held early this afternoon to determine what action would be taken in the case.

According to the story as learned by the Butler county authorities to whom the case was referred by Coroner Orville Potter, of Lawrence county, Sitman is said to have been struck by a man named Russell Enslen, a resident of the state of Indiana, who was visiting in the Zelienople district, and knocked to the floor of the bar room, where he struck his head on the tile flooring, receiving a fractured skull.

Young Sitman, with his mother, Mrs. Agnes Denny, of Harmony, and Mrs. Lena Grimes, of Beaver Falls, were said to have been involved in an argument in the hotel and were ejected but later returned and renewed the quarrel. THE OTHER WOMAN LIVES JUST AROUND THE CORNER

It may seem unreasonable, but most men cannot understand why a woman who is usually happy and loving should have recurring periods when her whole character seems changed. He cannot appreciate the distress, the discomfort that all women must endure. He does not know what it is to do housework with an aching back and failing energy. All he does know is that other women seem more cheerful by comparison.

Are you such a three-quarter wife?

Don't let the ordeals that all women face cause you avoidable discomfort or endanger your home. Do as so many wise women have —try Lydia E. Pinkham's Vegetable Compound.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

FROM ME TO YOU

By MESEEALL.

This morning word came from Bessemer that a baby boy came into the life of Mr. and Mrs. Kenneth Shick . . . what are you going to name the little shaver? . . . hope this is finding mother and baby doing fine . . .

* * *

Someone suggested that the Shick family name the little shaver "Electric" . . . get it.

* * *

Letters are still coming in on the fifty thousand dollar proposition . . . who is going to be the lucky one . . . lucky in what way? . . . that's for you to find out.

* * *

Again we have the parking meters in front of us . . . yes they will be there for some time . . . Thursday should find them in use but that is something else not too far from the present thought . . . it has been suggested that a wire be strung from post to post . . . that might keep the people from jay walking . . . not such a bad idea.

* * *

This is beautiful camping weather . . . if you are in a tent, the ropes are always loose when it rains at night . . . then the stakes pull loose and then you get up in dark . . . it's muddy and your p-jays get muddy and your covers become damp and the flys stick tight . . . but then comes the dawn . . . the sun shines bright . . . (or does it?) . . . if you live in a cottage, things are not too bad . . . your clothes get a little damp and the covers are also the same . . . but the roof doesn't leak . . . (not too bad) . . . but taking things into consideration . . . everything if you want to . . . camping is not so bad . . . there is nothing like the open spaces.

* * *

Don't forget that Wednesday will be Dollar Day . . . read tonight's paper carefully for real Bargains . . . there are 48 stores offering honest to goodness bargains . . . more will appear Tuesday night . . . don't forget the classified ad page.

Market Is Paced By Buoyant Steel Group Today, Gains Point And More

By LESLIE GOULD

NEW YORK, Aug. 9.—Paced by a buoyant steel group, the stock market today chalked up gains of a point or more in moderately active trading.

Wall Street was in a bullish frame of mind, expecting an early adjournment of congress and viewing the business situation and outlook as increasingly promising. The list was improved from the opening.

Trading was featured by a sharp break in Auburn on week-end developments surrounding S. E. C. charges against E. L. Cord and the sale of his aviation and allied holdings. The stock tumbled more than five points at one time.

Grain prices were generally reactionary during the forenoon, wheat and corn losing as much as a cent a bushel at Chicago. Cotton futures marked time awaiting the government crop estimate. Bonds were quiet. Federal obligations eased somewhat.

Strength in steel shares was the feature of the stock market. Youngstown Sheet & Tube jumped two points, while Bethlehem and U. S. Steel ran up half as much. Chrysler, ex-dividend 3½, gained well over a point and General Motors a large fraction. American Locomotive in the rail equipments and Deere in the farm implements each climbed two points.

Parade Is Concluding Feature Of Convention Of 28th Division Vets

Flags and bunting are down, the visitors have left for their homes and the seventh annual convention of the Society of the Twenty Eighth Division is just a memory.

A pleasant memory however, for the men and women who attended the convention classify it as the best the society ever had. New Castle people were pleased with the display put on by the society and the number attending, especially on Saturday the last day.

Saturday afternoon the annual parade was staged over the downtown streets. William A. Miller, newly elected president was the grand marshal of the parade with Captain Harvey G. Bintrim forming the parade and handling the arrangements until he turned it over to the marshal at 3:30.

Rain Interferes

At three o'clock a heavy downpour seemed destined to spoil any parade but half an hour later the sun came out and the divisions swung into line. Plenty of martial music pepped up the parade. The American Legion Junior band, the Duquesne drum corps, the Rochester drum corps, the Youngstown drum corps, and the Sons of Veterans drum corps were in fine mettle and the parade was a reminder of other days.

Perhaps it wasn't as precise as that one in Philadelphia in 1919, when the division returned from France, but the spirit was still there and the old 28th pep stood out. The 107th Field Artillery of Pittsburgh had the largest delegation in line. In addition to 28th veterans a number of local men of other units co-operated, particularly the American Legion and the Veterans of Foreign Wars. The newly formed Women's Auxiliary was in line proud of the fact that it was now a definite unit of the Society of the 28th division.

Evening Banquet

At seven thirty the annual banquet of the society was held in the Castleton ball room with Ronald Thompson of Pittsburgh, as toastmaster. Arrangements for the banquet were in charge of Lester W. McClelland and the arrangements moved off smoothly. There was no formal program of speaking, the 28th banquets are for the purpose of reminiscences, but a number of the men present were called upon for short addresses.

Saturday afternoon the Women's Auxiliary, newly formed, held its final meeting in the Legion Home with the first president, Mrs. Alice V. Jones, presiding. A number of distinguished guests were introduced among them Miss Edith Davidson, Pittsburgh, national president of the Women's Overseas Service League, Mrs. Mary Bell acting president Women's Overseas Service League, Mrs. Olive Reed Bolinger, New Castle, an oversees nurse, Mrs. Sidney Berstler, of Ellwood City, acting president elect of the four county council, American Legion auxiliary, Mrs. Tempa Stickle, New Castle, president V. F. W. auxiliary, Mrs. Evelyn Woods, New Castle, department district council member V. F. W., Major James E. Wright, judge advocate, Society of the 28th division.

Upon adjournment the auxiliary held a luncheon in the Elks Home on North Mill street.

At the conclusion of the convention the officers were enthusiastic at the success of it. Said retiring national president A. Lewis Conn. "New Castle certainly showed the men of the 28th a good time. I am proud of the fine spirit manifest and I am particularly pleased with the co-operation of the American Legion and the Veterans for Foreign Wars in our convention.

New Castle showed us something" said the new national president William A. Miller of Harrisburg. "Cities getting the conventions in the future have something to shoot at and I hope some day we come back to New Castle."

Tigers Stage Annual Picnic

About 500 Persons Attend Event Held At Neshannock Falls

Although Ole Man Weather wasn't generous with his sunshine Sunday, the ninth annual outing of the Tigers Club, held at picturesque Neshannock Falls, was a marked success from every standpoint. About 500 persons participated in the program arranged by the committee.

A storm threatened to mar the activities earlier in the day. At 1 o'clock, a picnic dinner was served followed by an interesting athletic program. Winners included: Eugene Pascarella, 25 yard dash for boys 6 to 8; Geraldine General, 25 yard dash for girls 6 to 8; Fred Grant, 35 yard dash for boys 9 to 12; Mary Pascarella, 35 yard dash for girls 9 to 12; Cosmo Casacchia, 50 yard dash for boys 13 to 16; Moon Restivo and Joe Perrotta, 50 yard three-legged race; Helen Balin, 50 yard dash for ladies; Joe Perrotta, 50 yard dash for men; Joe Perrotta, shoes off and on race; Moon Restivo, 100 yard dash; Miss Mary Pascarella; singing contest winner.

Headlining the afternoon program was a Tug-of-War battle between the Tigers club and a team selected from guests present. After much hoofing and pulling, the following team defeated the Tigers: Cy Ingham, William R. Hanna, Frank Ross, Ray Humphreys, D. E. Cioffi, Fred Vaughn, Jack Velker, James Horean and Garfield Davis.

The DeCarlo brothers entertained the group with a delightful musical program. Prizes were awarded to the following persons during the course of the day: Mrs. Dan DiCarlo, Florence General, Mrs. Joseph Boardonaro Jr., Sam Vericelli, Nick Daltorio, Mrs. Peter Richards, Mrs. Anthony Recupio, Nick Pannella, Victor George, Mrs. Al Scarazzo, Laura Cioffi, John DeCarlo, Mrs. James L. Scarazzo and Joseph Rozzi. The Morra game was won by Joseph Nocera's team. Mike Morella's team was the loser.

The success of the occasion is due to the hard work of the following committee: D. E. Cioffi, general chairman, Joseph A. Ciotta, Anthony C. Ricciardi, Clem General, Dan Di Carlo, Pat Diana, Joseph Iacobucci and Sam Vericelli.

State's Relief Load Increases

(International News Service)

HARRISBURG, Aug. 9.—Pennsylvania's direct relief load continued to increase during the last week of July, the department of public assistance reported today, with WPA retrenchment accounting largely for the net addition of 2,186 cases. As of July 31, the relief total was 144,999 cases, or 444,687 persons.

During July, Secretary of Public Assistance Karl De Schweinitz said, the average weekly number of cases opened because of loss of works program employment was more than doubled over June.

Gains in industry, De Schweinitz said, have "made possible a steady reduction in the total number of families dependent on some form of relief—direct or work."

"One phrase," says a writer, "may clarify the whole situation in congress." What about "all hot and bothered?"

Catch a Tuna? Pigeons Bring in News of Strike

In Atlantic City, N. J., there is a Tuna club which employs carrier pigeons to pass the word of a "strike" around to other club members. Each boat going out carries two pigeons, one to send back immediately with the news and the second to hold in case of an emergency. When the pigeon returns with the news other boats go out. Capt. Philip Archer owns the pigeons.
